SELECTED PROJECTS

The Eight-Organ System

Governance as creative infrastructure — 171 repos, 10 orgs

- Designed orchestration architecture coordinating theory, art, commerce, community, and marketing as a single governed system
- Built machine-readable registry, automated dependency validation (31 edges, zero back-edge violations), and promotion state machine
- Authored ~988K words of public documentation; 5 GitHub Actions workflows for autonomous governance

Recursive Engine (RE:GE)

Symbolic operating system for myth and narrative — Python

- Implemented 21 organ handlers translating epistemological frameworks into executable code with a ritual syntax DSL
- 1,254 tests, 85% coverage; myths, identities, and recursive structures as first-class computational objects

Agentic Titan

Multi-agent orchestration — 9 topologies, 22 archetypes

- Polymorphic agent swarm architecture across 9 self-organizing topologies with 22 agent archetypes
- 1,095+ tests across 18 implementation phases; model-agnostic (Anthropic, OpenAI, Ollama)

AI-Conductor Model

Human-AI co-creation methodology

- Developed the workflow producing ~988K words: AI generates volume, human directs and refines
- Includes quality gates, template compliance validation, and automated link checking across 171 repos

Forward Funders — Marketing Overhaul

Cold-calling to digital marketing — 328% ROI

- Transitioned client from in-person cold-calling to fully digital marketing; designed social media and Google Ads campaigns achieving 328% ROI

Boca Ballet Theatre — Digital Transformation

Nonprofit survival during COVID-19

- Rebuilt website and social media channels during COVID-19; ad campaigns drove funding and enabled remote performances
